WEEK 4 · LESSON 24 OF 24 · HANDOUT

Final Project and Certificate

Study time: **about 90 minutes** (reading, video and activity)

▶ **Watch:** https://www.youtube.com/watch?v=fa8k8IQ1_X0 — open the lesson online to watch inside the course.

Your goal in this lesson: Bring together everything from the course into one professional portfolio project, reflect on your growth, and earn your WAMUGII certificate.

Your final project: an AI-augmented work sample

Choose **one real problem** from your study, work, business or community and solve it with responsible AI use from start to finish. Then present it as a portfolio-ready case study.

Choose one track

- **Communication track** — a full set of professional communications (for example: a project announcement, a client proposal and a follow-up email series).
- **Research track** — a short research brief (2–3 pages) on a topic in your field, with real verified sources.
- **Data track** — a small data analysis with formulas, a chart and a one-page recommendation.
- **Business track** — a marketing or customer-service toolkit for a real small business (content calendar, FAQs, reply templates).
- **Education track** — a complete lesson pack (plan, slides, practice questions and answer key).

What to submit (in your portfolio)

Part	What to include
1. The problem	Who has it, why it matters (100 words)
2. The final work	The finished product from your chosen track
3. Your AI workflow	Tools used, 3–5 key prompts, what AI did vs. what you did
4. Verification	What you checked, how, and at least one AI mistake you caught
5. Responsibility	How you protected privacy and avoided bias or deception
6. Reflection	150–200 words: how your use of AI changed during this course

Quality checklist

- ☐ Solves a real problem for a real audience.
- ☐ Uses at least three techniques from Week 2 (R-T-C-F, few-shot, step-by-step, interview, critique, chaining).
- ☐ Every fact, number and source checked (C-H-E-C-K).
- ☐ No personal or confidential data exposed (S-A-F-E).
- ☐ Written and finished in your own voice.

- ☐ Added to your portfolio with a short summary you could use in an interview.

Earning your certificate

When you have completed **every lesson** in the course, your **WAMUGII Certificate of Completion** unlocks on the course page. Download it, add it to your CV and LinkedIn under Licenses & Certifications, and share what you built.

What next?

You now have the foundation. Continue with **AI Foundations**, the next course in the WAMUGII AI Program, to understand how AI systems work in more depth — on the path to building and deploying AI yourself.

Remember this: You can now use AI to do real work faster and better — while checking it, protecting people and staying honest. That is what an AI-ready professional looks like.

Name: _____ Date: _____

Activity

Task 1

Choose your track and your real problem today.

Task 2

Plan your work using the worksheet in this lesson's PDF.

Task 3

Complete the six parts and the quality checklist.

Task 4

Mark this lesson complete, download your certificate, and share your achievement.
